Preface: Theodoros B. Grivas
Society on Scoliosis Orthopaedic and Rehabilitation Treatment (SOSORT)

Section I. Aetiology
R. Geoffrey Burwell, Peter H. Dangerfield and Brian J. C. Freeman.

Jean Claude de Mauroy.
- Idiopathic Scoliosis and Chaos. 53-57

Section II. Recent Trends on Scoliosis Research
Keith Bagnall.
- How Can We Achieve Success in Understanding the Aetiology of AIS? 61-74

Ian A.F. Stokes.
- Mechanical Modulation of Spinal Growth and Progression of Adolescent Scoliosis. 75-83

Theodoros B. Grivas, Elias S. Vasilaidis, Georgios Rodopoulos and Ioannis Kovanis.
- School Screening as a Research Tool in Epidemiology, Natural History and Aetiology of Idiopathic Scoliosis. 84-93

Section III. Genetics
Martha C. Hawes and Joseph P. O’Brien.
- Scoliosis and the Human Genome Project. 97-111

Section IV. Prevention - School Screening
- How to Improve the Effectiveness of School Screening for Idiopathic Scoliosis. 115-121

Section V. Clinical Evaluation and Classification
Fabio Zaina, Salvatore Atanasio and Stefano Negrini.
- Clinical Evaluation of Scoliosis During Growth: Description and Reliability. 125-138

Stefano Negrini, Salvatore Atanasio, Claudia Fusco, Fabio Zaina and Alberto Negrini.
- 3-DEMO Classification of Scoliosis: A Useful Understanding of the 3rd Dimension of the Deformity. 139-153

Section VI. Inclusion Criteria
George H. Thompson and B. Stephens Richards III.
- Inclusion and Assessment Criteria for Conservative Scoliosis Treatment. 157-163

- Indications for Conservative Management of Scoliosis (SOSORT Guidelines). 164-170

Section VII. Various Methods of Physiotherapy
Hans-Rudolf Weiss and Axel Maier-Hennes.
- Specific Exercises in the Treatment of Scoliosis – Differential Indication. 173-190

Michele Romano, Alessandra Negrini, Silvana Parzini and Stefano Negrini. - Scientific Exercises Approach to Scoliosis (SEAS): Efficacy, Efficiency and Innovation. 191-207

Manuel Rigo, Gloria Quera-Salva, Monica Villagrana, Marta Ferrer, Anna Casas, Clara Corbella, Amaia Urrutia, Sonia Martinez and Nuria Puigdeval.
- Scoliosis Intensive Out-Patient Rehabilitation Based on Schroth Method. 208-227

Krystyna Dobosiewicz, Jacek Durmala and Tomasz Kotwicki.
- Dobosiewicz Method Physiotherapy for Idiopathic Scoliosis. 228-236

Jacek Durmala, Waldemar Tomalak and Tomasz Kotwicki.
- Function of the Respiratory System in Patients with Idiopathic Scoliosis: Reasons for Impairment and Methods of Evaluation. 237-245

Toru Maruyama, Katsushi Takeshita and Tomoaki Kitagawa.
- Side-Shift Exercise and Hitch Exercise. 246-249

Marianna Bialek and Andrzej M’Hango.
- «FITS» Concept: Functional Individual Therapy of Scoliosis. 250-261

Section VIII. Braces

Edmond Lou, Douglas Hill and Jim Raso.
- Brace Treatment for Adolescent Idiopathic Scoliosis. 265-273

Theodoros B. Grivas, Georgios 1. Rodopoulos and Nikolaos V. Bardakos.
- Biomechanical and Clinical Perspectives on Nighttime Bracing for Adolescent Idiopathic Scoliosis. 274-290

Hans-Rudolf Weiss and Manuel Rigo.
- The Chêneau Concept of Bracing - Actual Standards. 291-302

Manuel Rigo and Hans-Rudolf Weiss.
- The Chêneau Concept of Bracing - Biomechanical Aspects. 303-319

Tomasz Kotwicki and Jacques Cheneau.
- Passive and Active Mechanisms of Correction of Thoracic Idiopathic Scoliosis with a Rigid Brace. 320-326

Jean Claude de Mauroy, Paule Fender, Biagio Tata, Piera Lusenti and Gioacchino Ferracane.
- Lyon Brace. 327-340

Christine Coillard, Alin Circo and Charles H. Rivard.
- Treatment of Early Adolescent Idiopathic Scoliosis Using the SpineCor System. 341-355

Salvatore Atanasio, Fabio Zaina and Stefano Negrini.
- The SPoRT (Symmetric, Patient-Oriented, Rigid, Three-Dimensional, Active) Concept for Scoliosis Bracing: Principles and Results. 356-369

James H. Wynne.
- The Boston Brace System Philosophy, Biomechanics, Design & Fit. 370-384

Section IX. Study of the Surface After Brace Application

Theodoros B. Grivas and Elias S. Vasilidiadis.
- Cosmetic Outcome After Conservative Treatment of Idiopathic Scoliosis with a Dynamic Derotation Brace. 387-392

Section X. Brace Treatment Outcomes

Stefano Negrini, Salvatore Atanasio, Fabio Zaina, Michele Romano, Silvana Parzini and Alessandra Negrini.
- End-Growth Results of Bracing and Exercises for Adolescent Idiopathic Scoliosis. Prospective Worst-Case Analysis. 395-408

Elias Vasilidiadis and Theodoros B. Grivas.
- Quality of Life After Conservative Treatment of Adolescent Idiopathic Scoliosis. 409-413
